Subject: NCI Bid Board Posting – Service Agreement for S60 (SN: 000329)

Surgical Oncology Program clinical trials focus on gastrointestinal cancers (stomach, small bowel, colon/rectum, liver, pancreas and bile duct) as well as endocrine cancers (thyroid, parathyroid, adrenal, gastrointestinal tract and pancreas) and a myriad of endocrine tumor syndromes. Expertise in both diagnosis and treatment is necessary to provide patients with the best possible outcomes. Patients require experts in the fields of surgical oncology, gastroenterology, endocrinology, medical oncology, radiation therapy, interventional radiology and more. Members of our surgical team have partnered together, providing patient care for over ten years. It is our seamless and integrated approach to cancer treatment as well as cutting edge clinical protocols and research that is the greatest benefit to our patients.

The primary objective is to purchase a service agreement to maintain and provide preventive maintenance for the NanoZoomer S60 slide scanner, s/n 000329. This equipment scans pathology slides to capture digital images of the slides. This scanner supports acquisition of both brightfield and fluorescent images. All maintenance services shall be performed on-site in accordance with the manufacturer's standard commercial maintenance practices.

The National Cancer Institute plans to purchase service agreement for the NanoZoomer S60 slide scanner, s/n 000329 from Hamamatsu Corp. This is not a request for competitive quotation. However, if any interested party believes it can meet the attached requirements, it may submit a statement of capabilities. The capability statement must be in writing and must contain information and material in sufficient detail to allow NCI to determine if the party can fully meet this requirement. The capability statement must be received in the contracting office by 11:30 AM on April 6, 2025 ET. A determination by the Government not to compete this requirement based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether to conduct a competitive procurement.

Sole Source Justification:

Hamamatsu Corp is the sole source supplier for all NanoZoomer service maintenance and warranty service in the United States. Furthermore, unauthorized attempts by other than Hamamatsu (or their designated subcontractors) to repair, maintain, or modify the equipment are excluded from warranty service coverage and would have to be repaired at the Government's expense. Market research was completed. Market research included a review of required and recommended sources, commercial websites, historical data for similar procurements, and correspondence with knowledgeable end users from the requiring office. Based on the findings, the procurement be processed on a sole-sourced basis to Hamamatsu Corp.
